Patented Marking Systems that keep your Boat & Workplace in Compliance

The Etiflex® Patented Marking System and our Wrap 'N' Tap™ Fastening System combine to put flexible and permanent inspection records and data right on the items. This assures compliance and protects workers from using out of date or uninspected products. All of the tags feature the Etiflex Patented Punch system that makes a permanent mark, has a long multi-year life cycle that saves money, and is made with our proprietary formula that resists abrasion, UV, cleaning solvents, and petroleum products.
